UL CATALOG NUMBER IHI “B6” Part Marking Information

The 2026 and later sales of sales catalog numbers below have UL Recognized status (c**RU**us) and unit container labeling will confirm that. The QR code will link to full documentation for the respective part.

B6 Style 1

Sales Part Numbers

B6A-PCB

B6A-PCB-HEX

B6A-PCB-HEX-M

B6 Style 2

Sales Part Numbers

B6A-PCB-45

B6A-PCB-45-HEX

B6A-PCB-45-HEX-M

B6 Style 3

Sales Part Numbers

(Special Order)

B6A-PCB-SMT

B6A-PCB-SMT-HEX

B6A-PCB-SMT-HEX-M

The UL catalog number marking “IHI B6” may or may not be physically marked on the parts shipped due to high volumes of transitional production and multiple screw options

Box labeling will have traceable documentation showing that all these items shipped in the past and future meet the requirements of the UL file whether marked on connector body or not.

Only parts that use these three screws are UL Recognized

1/4-28 set screw slotted (no suffix)

1/4-28 set screw 1/8” hex socket (-HEX)

1/4-28 set screw 3mm hex socket (-HEX-M)

Parts not meeting the UL Recognized requirements will not be labeled on container as such and have no links to UL documentation.

Ring Lug Mounts (RLM) bolts, non set screw screws, or parts shipped with no screw are not UL Recognized whether marked IHI B6 or not.

Any information requests should be sent to Sales@Lugsdirect.com or download information from: **IHIconnectors.com/b6.htm**
